Subject: When It Rains, We Score!

Wildwood's Fiddler's Walk took place this past Saturday. Despite the pooring rain, Dave Wallace's team showed up in force, and made a great show of it. I don't have the final count, but I'd estimate we had @ 20 people. I'll post the soggy pictures and final listing of attendees when they become available.

Wildwood raised over \$25,000 to benefit their developmentally disabled childrens' and adults' programs and living facilities. With 950 consumers, this money is essential to help autistic children learn to speak and Wildwood adults to live independently in safe assisted housing.

Our company's total is not yet in. But our strong support and team spirit were inspirational. Wildwood has expressed tremendous appreciation.

Dave made an exceptional effort to promote the event and build our team. It's therefore fitting that Dave Wallace should win the Team Recognition Award. Dave, please accept our appreciation and enjoy your well-deserved \$50 Gift Card at The Butcher Block Restaurant or any of their affiliated establishments.

Finally, The Fiddler's Walk was an inclusive event in which everyone could participate. It was inspiring to see developmentally disabled adults, the elderly, and even Tina Yetto's 4 year old daughter walking with us (with a little help from Ryaz). It was a memorable day. The rain just added to the experience.

Thanks for supporting the disabled and our community. I hope you're all as proud as I am.

Bob
